

Data Engineer

(m/f/x – Part time freelancer - hybrid)

Are you passionate about sustainability and technology? Do you believe in the power of data to drive meaningful change? If so, EnergyTrack is the place for you. We are a Vienna-based, eco-certified startup focused on revolutionising the way businesses and organisations understand and manage their electricity consumption.

Our goal: reducing energy waste for a better world.

WHO ARE WE LOOKING FOR?

We are seeking a dedicated and innovative freelance data engineer to join us as we enhance our data management and AI deployment systems based on Trustworthy AI principles. You will play a pivotal role in building our data infrastructure and architecture design. We are looking for someone who is fluent in English (German is a plus) and who can work proactively with a flexible mindset. Reliability and active participation in our direct and open communication culture are essential. As a freelancer you are open to work remotely, nevertheless, you are invited to join our dedicated team on-site at our innovative co-working space.

WHAT QUALIFICATIONS SHOULD YOU BRING?

- At least 1 year of professional experience in a data engineering field with good experience in processing, collection, storage and analysis of data-driven architectures.
- Good experience in building scalable data pipelines (ETL), in relational (e.g. PostgreSQL) and/or non-relational database management systems (e.g. NoSQL, Amazon DynamoDB).
- Good knowledge of the design and development of common API architectures (e.g. RESTful, GraphQL, gRPC).
- Experience in cyber security to enhance the backbone against data-related security threats (e.g. access control mechanism, data masking, data backup management etc.).
- Experience in DevOps and cloud engineering on Amazon Web Services is a big plus.
- Experience in agile development methodology such as Scrum or Kanban (e.g. Jira) is a plus.

BENEFITS

- Vibrant team, purpose-driven business and learning-focus.
- Exposure to the start-up world and take part in the journey of shaping a business.
- High flexibility in organising working hours and working environment.

The job role foresees a part-time freelance engagement of 12 working hours per week with a monthly remuneration of €1,200 (gross) for a period of 4 months with the potential to extend. Start date is immediately or in August 2024 at the latest.
